PROFESSIONAL SUMMARY

Front-end developer with a background in healthcare. Completed a front-end boot camp and developed a professional working portfolio, whilst travelling Asia over the course of the last year. Currently working for Digipharma as a remote intern.

EXPERIENCE

Digipharma, Front-end Development Virtual Internship **Remote, United Kingdom**

September 2022-Present

- Turn design pages and specific components into HTML, CSS and JavaScript
- Analyse UI/UX design for responsive layout to improve usability
- Remotely engaging with both the development team and other interns

Career break travelling

July 2022-August 2023

Guest Lecturer for 2nd year Kings College Physiotherapy Students **Kings College University, London, United Kingdom**

November 2021

- Responsible for educating on highly specific subject regarding respiratory assessment for patients.
- Communicating technical subjects in a digestible manner for all levels of understanding.

Specialist Respiratory Physiotherapist NHS **South Kensington, London, United Kingdom**

August 2021- July 2022

- Created and implemented a new assessment service alongside a research project for the hospital, which was ranked amongst the 10 best in the UK. This involved 12 adult cystic fibrosis patients with home ventilation, which improved the communication with healthcare professionals and resulted in improved patient outcomes.
- Effectively collaborating with different professions, ensuring optimal care through clear and precise patient management.
- Responsible for managing 2 juniors, overseeing their professional development and acting as a point of contact – whilst carrying out the duties relating to my own caseload.

Qualified Physiotherapist NHS **Croydon, London, United Kingdom**

September 2018-August 2021

- Due to shortages in ventilators nationwide during the COVID-19 pandemic, my experience and knowledge led me to train 100+ nursing and physiotherapists staff, bringing them up to speed with the necessary technical capabilities, thus reducing patient morbidity and mortality.
- Ability to work under pressure and take on high levels of stress, proved whilst working in a hostile environment on the front-line during COVID-19.
- Ability to work as an autonomous practitioner, highlighted through the analysis of individual cases and problem solving in order to provide tailored care.

Private Qualified Physiotherapist **Croydon, London, United Kingdom**

September 2018- April 2019
